

# NEW-YORK DAILY TRIBUNE, THURSDAY, MAY 23, 1865.—FOURTEEN PAGES.

## PAPERS READ BY MILITARY SURGEONS.

PRIVATE SHOULDN'T CARRY REVOLVERS—MAJOR J. V. HOFF PRESENTS A SHIELD TO COLONEL SENN.

BUFFALO, May 22.—Only two papers were read at this morning's session of the Military Surgeons' Convention, the others being disposed of in congressional style by reading the titles and ordering them printed in the record.

Major Charles Adams, of the Illinois National Guard, read a paper on the experience of the surgeons of the militia during service at the Chicago riots. The surgeons made recommendations of some value, one which would seem odd was the suggestion that privates should not be allowed to carry revolvers on account of accidents. Another pertinent idea was that each regiment should have a trained hospital corps.

A short paper by Captain Miles Standish, of Boston, advised that tents for hospital service should be of blue or green color.

COOK Gibson read a report from the committee appointed a year ago to test and report on army letters, which recommended that the medical departments of the Army and Navy should call a board together to investigate and decide. The association endorsed this plan.

Colonel Senn, the chair called for invitations from cities which want the association to meet with them next year. General Foster presented the name of Boston, while Major Brown spoke for Cleveland.

Major J. V. Hoff of New York, then presented to Colonel Senn a solid silver shield as a testimonial on the part of the association of personal regard, and as an evidence of all that he has done for the association.

NOTICE.—The following notice to mark the experimental system of lighting the dredged channel in Mobile Bay, from the lower fleet to the city of Mobile, will be maintained after May 15 until further notice, with the following modifications:

On and after May 25, 1865, the gaslighted buoy now marking the west side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and will be lighted by United States Engineers on the first night of the month, and about two miles S 30° E from the first structure, and about one mile S 30° E from the first structure, Mobile Point, Morris Point Lighthouse S 88° E. East Point Lighthouse, S 58° W. westerly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the west bank of the channel, and about one mile S 30° E from the first structure, and about one mile S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, a white light will be placed on the Steamer Beacon at mouth of channel, as shown on the charts, about 40 miles S 88° E from the first structure, and about one mile S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will be taken up, painted white, and placed in the channel near the east bank of the channel, and about two miles S 30° E from the first structure, Morris Point Lighthouse, S 88° E. East Point Lighthouse, S 58° W. easterly. Right tangent Fort Gaines, W 88° S.

On and after May 25, the gaslighted buoy now marking the E side of the lower end of the dredged channel will
